Product Solution

Solution - EV Charging Station

As the demand for electronic vehicles (EVs) increases rapidly, many charging stations have been rolled out and more EV charging sites are also developing to meet the huge demands. In a nutshell, to build up an EV charging station, not only hardware infrastructure is needed, but also software supports such as network traffic management are crucial to establish EV charging sites. Therefore, they are built up in an easy-to-use, easy-to-manage and easy-to-maintain manner with facilitating of stable and reliable Ethernet network transmissions in accessible and affordable way...[\(more\)](#)
